*Activities for everyone*

## SEMUNYENI

Semunyeni offers all-inclusive glamping (glamorous, luxury camping) safaris, a completely immersive experience with encounters of the Botswana bush no lodge can match. We are a Botswana based safari company with fully serviced mobile camps designed to achieve a state of harmony and a celebration of balance and abundance.

## WHAT MAKES A SEMUNYENI SAFARI UNIQUE

**Tailor-made safaris:** Our team of tailor-made experts will create the perfect itinerary for you ensuring that your holiday in Botswana is truly one of a kind. If you are looking for an authentic safari experience then Botswana is certainly one of the places to be, with spectacular landscapes, an abundance of wildlife and a bounty of natural wonders. Enjoy an amazing African experience, with peace of mind.

Many of Botswana's top destinations can be found in the north of the country and our recommended itineraries focus on the wildlife-rich Okavango Delta. For the more adventurous at heart we would certainly recommend Central Kalahari Game Reserve, Makgadikgadi Pans, Nxai Pans. Here in the desert, you will get the opportunity to experience the diverse wildlife and wonderful scenery offering an amazing contrast to the rest of the country. Join us as we rove through the desert in search of the famous black-maned lions of the Central Kalahari. *Minimum stay of 3 nights.*

# The Bushman Experience...

## Central Kalahari

Interpretive, guided “Bushman Walks” are led by experienced guides who hail from the San Bushmen clans of the area and thus with their extensive knowledge, provide insights into their traditional lifestyle through dress, activities and a short walk. The dedicated walk is both awe inspiring and humbling, as you thread along paths animals roam free on. It is the perfect setting for the guest along with their friends and loved ones to appreciate the natural environment. The slow pace of the walk allows for the interpretative skills of the guides to open your eyes to a new and fascinating world.

The San share their intimate knowledge with guests, showing how to survive in the harsh environment of the Kalahari Desert by teaching which plants are safe to eat and which contain water, useful knowledge to thrive for so long in this demanding landscape. This walking safari is unique in Africa and many people travel to the Kalahari regions of Botswana just to participate in this experience.

# The Mokoro Excursion...

## Khwai

The mokoro excursion is a highly popular activity for Moremi and Khwai among guests who travel to Botswana. It is an opportunity to completely experience the sounds and sights of nature without running the risk of frightening off animals with a motor and is therefore a highly recommended expedition for photographers. Guides that command the mokoro are highly knowledgeable about the natural environment making these trips safe and enjoyable.

Some guests have described a mokoro trip as one of the most peaceful experiences they have had. Imagine gliding through water ways created by hippos that mirrors the sky above, brushing past tall reeds which are home to a variety of tiny brightly coloured painted reed frogs, and approaching an Elephant - ear deep in the water happily cooling off.

# The Walking Safari...

## Khwai

Walking safaris in Africa provide for some of the most dramatic activities and sightings on any safaris. Up until a few years ago Botswana was not on "the list" of popular walking safari destinations but in recent years more and more visitors to the country are choosing this activity.

### Highlights of a Botswana Walking Safari

- *Walking in pristine wilderness areas*
- *Experiencing unusual landscapes and wildlife*
- *Range of walking experiences to choose from*
- *Cultural interpretation walks with Bushmen*

Walking safaris in Botswana take on a number of forms, ranging from a morning or afternoon activity to a full safari lasting a few days. All walks are accompanied by experienced professional guides who bring the wilderness alive and share their intimate knowledge of the areas they walk in.

# The Night Drives ...

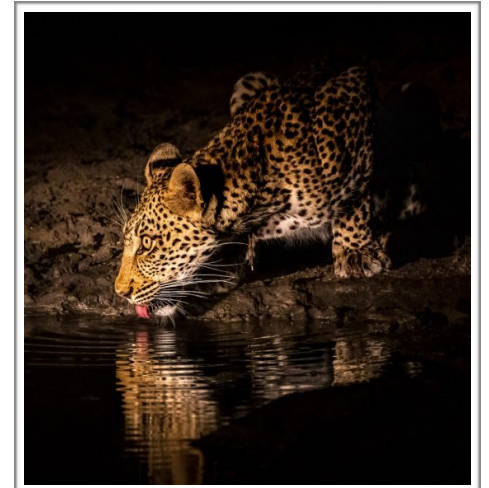

## Khwai

Night drives in Botswana provide for some of the most dramatic and unusual sightings, and although not offered in national parks or game reserves there is a unique experience for this in Khwai community concession area which is preserved and maintained by the local communities

### Highlights of a Botswana Night Game Drive

- *Dramatic animal interaction*
- *Seeing animals that would otherwise not be seen*
- *Stopping in the bush under the stars*
- *Chance of seeing hunting predators*

A night drive in Botswana is a thrilling experience every guest should have when visiting the delta. There is also the feeling of wonder when stopping somewhere in the bush, switching off the engine and listening to the sounds of the night whilst admiring the stars of the African night.

# The Rock Paintings ...

## Savuti

Come explore the vast and wonderful landscape of Savuti with an experienced guide opening your eyes to the wonder of the San bushman who marked their stories in the form of awe inspiring rock paintings.

Guests are permitted to get out and manoeuvre the little way up the rocky hills to view the artworks, found on the South-east cliffs overlooking the Savuti channel. Guests can also marvel at the historic baobabs in the area and look out for the seldom seen klipspringer antelope. Overlooking the arid river channel of Savuti, which today is only flooded by the high water of the Zambezi when flooding, you will find these excellent paintings on the walls of an "abri", a typical spot to stay for the hunter/gatherers. The paintings, although not carbon dated, are estimated not to be between 3000 to 4000 years old

# The Chobe River Cruise

## Chobe

Chobe National Park is well-known for its large herds of elephant that frequent the Chobe River on a daily basis. In the dry season an estimate of up to 85,000 elephants can be dispersed within the Chobe National Park, where the majority of them can be found along the river.

What better way to witness the largest natural roaming population of wild elephants than on a river cruise enjoying a cold beverage under the beautiful African sun. Other wonderful sightings include the likes of The lion, leopard, buffalo and a whole host of antelope like sable, the seldom seen puku, kudu, eland, roan and many others. The river is filled with big pods of hippos and some of the biggest crocodiles in Africa.

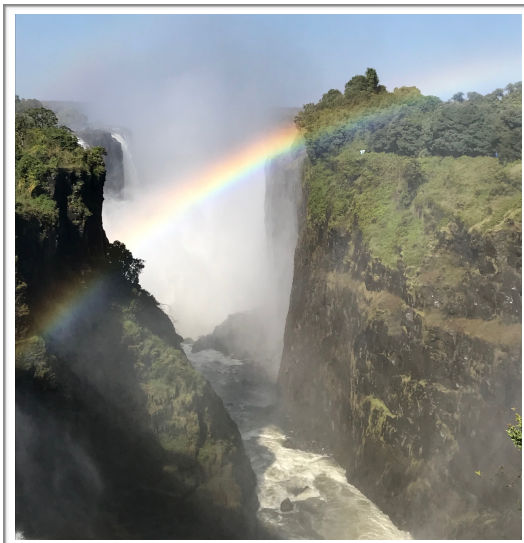

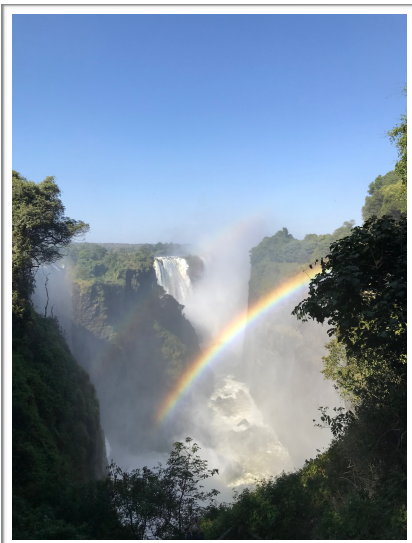

*Its an opportunity to create memories to never be forgotten.*

# Victoria Falls Day Trip...

## Zimbabwe

Victoria Falls presents a spectacular sight of awe-inspiring beauty and grandeur on the Zambezi River, forming the boarder between Zambia and Zimbabwe.

Columns of spray can be seen miles away. At the height of the rainy season, more than five hundred million cubic meters of water per minute plummet over the edge of a rocky waterfall. This is covered over a width of two kilometres, into a gorge over one hundred meters below.

It was described by the Kololo tribe as "The Smoke thats Thunders". In more modern terms, Victoria Falls is knows as the greatest curtain of falling water in the world. A spectacular sight that will take your breath away as you explore the different view points, following a path from the forested head of the fall to the open areas where you can appreciate the water crashing on the open cliffs.
